Please Note the following.

* 1. Ram lots with an * have been classified as unregistered UltraWhite Rams due to having incomplete pedigree details available. e.g. one grandparent unidentified due to lost ear tag. Therefore the ram cannot be registered with the UltraWhite Association (USBAA) as there is not a full pedigree available going back 4 generations.

* 2. These rams with an * have been classified as unregistered UltraWhite rams.

3. HFplus rams are at the start of the ram catalogue. **HFplus gene status** indicated as **HF++** for a double carrier and **HF+** for a single carrier.
